A LIVELY DAY ON THE STOCK MARKET

Substantial Basis for Confidence Stimulated Buying.

REFLECTS LARGER FORCES

No More Fear of Lack of Resources to Meet the Expanded Conditions of Trace-Belief That No General Strike Will Occur.

NEW YORK, July 16.-There was an active and variegated speculation in atom s to-day, the market renecting the play or larger forces than at any time during the recent advancing tendency. No speci-

The recent advancing tendency. No specific new developments were evident to account for the movement, which was apparently due to the substantial basis of confidence in the generally prosperous condition of the country and the firm foundation of credits. The uneasiness over the resources of the money markets to meet the expanded requirements upon them was also loss in evidence.

The reported dissolution of the speculative corner in the July corn option at Chicago had not a little to do with engendering confidence, as it was felt for several days past the struggle to maintain the conditions in that market would result in pressure upon New York for money and in forced liquidation of stocks that might preve disastreus to the market. The published abstracts of the affidavits of officials of the United States Steel Corporation, in connection with the suit against the corporation, were expected to have a stimulating effect upon prices. The fact that the advance in the United States Steel corporation, were expected to have a stimulating effect upon prices. The fact that the advance in the United States Steel corporation, were expected to have a stimulating effect upon prices. The fact that the advance in the United States Steel corporation, were expected to have a stimulating effect upon prices. The fact that the advance in the United States Steel corporation, were expected to have a stimulating effect upon prices. The fact that the dayance in the United States Steel stocks came to a standatill under the flood of long stock which came out when they were bid up, and the further fact that Chicago renewed its demand upon New York for currency, causing a shipment of \$100.00 and the further fact that Chicago renewed its demand upon New York for currency, causing a shipment of \$100.00 and \$100.00 and

upon their beilef that they diffected the operations of Morgan and Standard Oil interests in the large buying orders executed by various brokers. The bringing forward of new stocks into the upward movement was taken advantage of on a very large scale to take profits in stocks, which were, generally speaking, the high-priced established dividend-payers, and especially amongst the Grangers, but no serious inroads were made on the prices of these stocks. Stocks of the second grade, lower in price and with no established dividend-paying pecord, led the market.

established dividend-paying record, led the market.

The heavy absorption of Chicago and Alton strengthened other low-priced railroad stocks in the West and Southwest, while the aggressive rise in Chesapeake and Ohio affected the low-priced coal-carrying roads, both in the anthracite and bituminous group. The belief that tomorrow's miners' convention at Indianapolis will decide agaist a general strike, and thus lead up to an early settlement of the anthracite strike was the predominating influence in this group. Much was made also of a current rumor that the control of Reading had passed to the Pennsylvania, thus further centralizing that corporation's control of the coal traffic. There were other noints of strength from individual causes. Amalramated Conner was bought in the belief that the creent dividend rate is to be maintained. Tempessee Coal refered a favorable remove of earnings. The settlement of the facient handlers' strike in Chicago was a favorable influence especially upon the Chicago Terminal transfer stocks.

The market closed somewhat irregular, with profit-taking continuing, but there was a favorable renewal of the buying power in the strong stocks.

There was a large business in honds, and offerings were absorbed without hurtier prices. Tested seles are veing estimated on the last cell.

The total sales of stocks for the day.

the last call.
The total sales of stocks for the day were 822,200 shares.

MONEY AND ENCHANGE—Money on call closed steady at 2½63½ per cent; cosed offered at 3 per cent; prime mermantile paper, 4½65 per cent. COTTON MARKETS.

NEW YORK, July 16.—The cotton market opened quiet with prices uncnanged to 3 points higher, this being a natural response to firmness in the Liverpool market and to supporting orders from abroad. Following the call the tendency was upward on buying led by the shorts, who seemed to fear possible "squeezes" in july and August. The crop and weather reports were very favorable as a rue, and there were few investment orders in avidence. Later in the morning Liverpool lost a portion of the early advance and selling for profits by insiders became something of a feature. Demand from shorts petered out and prices slowly silpped backward, reaching a level silghtly below yesterday's close soon after the noon hour.

For the greater portion of the balance of the day the market was dull and narrow with sentiment mixed. The Government reports gave good rains in the central and portions of the western belt, and the forecast was for showers and thunlerstorms to night and to-morrow over the eastern and central sections. The market closed dull and steady, with prices net unchanged to 5 points higher, having railled near the close on demand from local shorts and absence of offerings to speak of. Total sales 20,000 bales, estimated. COTTON MARKETS.

NEW ORLEANS, LA., July 16.—COTTON—In the spot cotton market quotations were unchanged. Futures were dull with trading confined principally to room work. The market went 305 points above vesterday's level, and under the influence of early huying orders moved up 305 points additional, after which it settled flown to a period of inertia, during which prices fluctuated a point or two with just a bare downward tendency, leaving them at the close net 204 points above yesterday's closing figures.

COFFEE MARKET.

NEW YORK, July 16.—COFFEE—The market for coriee futures opened irregular, unchanged to a points ingner, due to covering and fair investment; denand, following the initial call prices in some instances worked still higher on continued nervous demand from shorts and foom onlying for a rally, noon bids relicting unchanged prices to a net advance of 10 points, near months being relatively the strongest. Early in the afternoon heavy realizing set in, under which prices broke sharply, some 100,00 points from the high point of ten day. The market closed easy, net 10g/15 points lower. Shorts put out heavy lines on the declines; importers were sellers all day. Trading amounted to 57,000 bags, including July 5.00g/515; August, 5.00 g/5.10; September, 5.00g/10; October, 5.15; December, 5.10; March, 5.26g/5.35; May, 5.30g/5.45. Spot Rio, easy and nominal; No. 7 invoice, 5/4c.; mild, steady; CHICAGO MARKET

CHICAGO MARKET.

CHICAGO, ILLL., July 19.—Grain trad-ing was common place to-day when com-pared to yesterday's tumurious fluctua-tions. Many conditions were trarish, and early in the day it was expected that July corn would take a further drop. This, nowever, did not occur, and the very absence of weakness caused much comment.

CHICAGO, ILL., July 16.-CATTLE-

sence of weakness caused much comment. In the end the firmness of corn gave rise to the opinion that the July corner might not be a thing of the past after all. At the close July corn was %c. up; September corn unchanged; September wheat 40%c. lower, and September oats 140%c. nigher. Provisions closed a shade higher to 7½c. lower.

IN THE MARKET

Several Other Stocks Are Moved Up Higher.

C. & O. JUMPS FOUR POINTS

It is Said That the Buying Was by John W. Gates-Rumors About an Increase of Dividend.

The stock market is growing more and more interesting, and there are signs of several days past stocks here and there have been taken up and advanced, notably the Grangers. It was thought by some New York Central and Pennsylvania had New York Central and Pennsylvania ind been pushed up by manipulators for the purpose of unloading their stocks which they neld. There was much prodictaking on Tuesday, but yesterday the market broadened out considerably and became very strong througnout the list. St. Paul, Atchison, Union racific, Missouri Pacific and other stocks which had been put up of late were still very strong, but there were notable gains in several other stocks.

C. AND O.'S BOOM.

C. AND O.'S BOOM.

Chesapeake and Ohio led in the upward movement yesterday. It started at 49½ and continued to go up until it reached 3356.

Chesapeake and Ohlo led in the upward movement yesterday. It started at 48½ and continued to go up until it reached 33%.

Chicago and Alton was another favorite and went up several points, and the Colorado and Southern issues were all strong, the common selling above 33, second preferred at 47½, and the first preferred at 74½. Norfolk and Western was strong in sympathy with Chesapeake and Ohio, but the gain was small.

There was no news on this market to account for the sudden dump in Chesapeake and Ohio. It was stated in the sarly morning gossip that a tip was out to buy Chesapeake and Ohio for 60, but little attention was paid to it. That the rise should come just now, when the mines along the Chesapeake and Ohio Road have a strike on their hands and when the earnings of the road have failen off materially, is one of the mysteries of Wall Street. There was some gossip about an increase of dividend, but this is hardly to be credited. The rumor is that the stock was bought yesterday by John W. Gates, the man who recently put Louisville and Nashville up.

Steel stocks were also strong in yesterday's trading, the common selling above 40 and the preferred above 31. Locomotive issues were also strongs in many cases at the best prices of the day.

A WALL STREET VIEW.

Sweet & Co. say: "Alton shares were rarian sagressively bought, the common schock gaining about 4 points and the preferred over 1½ points. Coincident with this continued strength was the advance in Chicago Terminal transfer stocks. As the session advanced the strength steadily increased, and traders turning from the hear side of the market caused a stampede in shorts, and in some cases share rains swere recorded. This was noticeable in Colorado Fuel, which the prefessional element bought argressively. marking the stock up four points, and in sympathy Tennessee Coal also advanced smartly."

Receipts, 15,500, including 500 Texans; cnoice, steady to strong, others slow. CARRIED A FULL LINE

Bishop Dudley's Story of His Meeting With a Sociable Drummer.

The Rt. Rev. Thomas Underwood Dud-ley, of Kentucky, one of the eminent bishops in the Episcopal Church, enjoys good story as well as if he did not year the cloth. He tells this one on

himself.

A number of years ago he was going by train to one of the smaller towns of his diocese to hold services. He was enjoying a cigar in the smoker, and upon the seat facing him was a very large vallse, containing his clerical vestments. A drimmer sitting back of him noticed his jainty traveling cap, leaged forward and inquired:

"Traveling man, eh?"

"Yes," answered the bishop.

"What house dye represent?"

"The biggest house in the world."

"Shillito?" (the largest house in Cincipatil) asked the drummer.

"Bigger than that."

"Bigger than that."
"Marshall Field?"

"Pigger than that."
"A. T. Stewart's?" "Figger yet."
"Well, what house is it? Those are the best I know."
"I represent, sir," said the bishop, im-The salesman gave a gasp, then glanc-ing at the mammoth vallse, exclaimed: "Well, all I've got to say is, you carry a pretty full line of samples."—New York

\$4,222,149 for Pens and Pencils. The census bureau has isued a report on the manufacture of pen and pencils in the United States for 1900. It shows that a total of \$1.571.741 was invested up this manufacture in the fifty-five establishments reporting for the United States. The value of the products is returned at \$4.222.19; wages, \$1.197.405; materials used, milt supplies, freight and fuel \$1.747.852.
